

DEAN TERWEDUWE

FULL TIME INFRASTRUCTURE ENGINEER | DATACAMP

INTRODUCTION

Full time infrastructure engineer with 2+ years of experience.

I'm mostly interested in general infrastructure, kubernetes and CI/CD. Mainly familiar with AWS and GCP as cloud providers.

Used to working with
Terraform and Ansible to
deploy infrastructure.
Fun tools I used are
Terraform, Concourse,
Artifactory, Ansible,
Docker and EKS.

Personal info

Full Name

Dean Terweduwe

E-mail

dean.terweduwe @gmail

Date of birth

august 12, 1997

Address

Wezelbaan 18 3271 Zichem Belgium

Languages

Dutch: Native English: Excellent

PROFESSIONAL EXPERIENCE

FULL TIME INFRASTRUCTURE ENGINEER · DATACAMP · 2021 - PRESENT

In the infrastructure team my main responsibility is to build a stable and performant platform while keeping cost and efficiency in mind. I have built and deployed infrastructure in split environments/accounts for production and staging.

Setting up the CI/CD flow for developers to ensure they can do their work in an efficient manner and keeping deployments frequent. Using infrastructure as code to keep everything in source control. I have helped develop cost reports and dashboards for the company to view trends in spending in a granular fashion.

I am mainly familiar with Amazon Web Services and Google Cloud platforms.

INTERNSHIP AT THE DATACAMP INFRASTRUCTURE ENGINEERING TEAM DATACAMP • 2020 - 2021

During my internship I worked with AWS, Docker, CircleCI, k8s and ShinyProxy. My job was to adapt the current dashboards to ShinyProxy and take up smaller jobs while working on this task.

TEACHER OF CODING AT SUMMER CAMP · SKILLZ · SUMMER 2019

I have taught coding to children from the ages of 7 to 12. Introduction course using Scratch.

Creating website for umami catering • UAS Leuven • 2019

UAS Leuven organized a project where small teams had to make a website for a local client. The teams had to communicate with the client to create a website for their catering company.

DEVELOPMENT OF IOT APPLICATION · UAS LEUVEN · 2019

UAS Leuven organized a project week where we were tasked with coming up with a useful concept for an IoT device. Afterwards we made a practical prototype and marketing slogan. We worked in teams of around 4 people.

French: Basic

EDUCATION

BACHELOR APPLIED INFORMATION TECHNOLOGY • 2016 - 2021 • UAS LEUVEN UC Leuven-Limburg University of Applied Sciences.

Specialization in system management and networks.

BACHELOR INDUSTRIAL ENGINEERING • 2015-2016 • GROUP T LEUVEN

Started out of interest in mechanical engineering and computer science. I Chose a more specialized education the following year when I found my love for computer science.

GYMNASIUM SCIENCE AND MATHEMATICS · 2009-2015 · SANCTA MARIA AARSCHOT

SKILLS AND TOOLS

Docker, Kubernetes, Artifactory, AWS, AWS EKS, AWS transit gateway, GCP, GKE, Terraform, Continuous integration and Continuous Delivery (CI/CD), Jira, Git, Confluence, Concourse, Circleci, SQL, Spotify backstage, Java, MS Office, Html, CSS, Cisco CCNA, Linux, C#,

Basic JavaScript, Basic Python, Basic assembly code
